## 5. PAGE DESIGN

The image shows two wireframe designs for a course landing page. The top wireframe is titled 'Для кого этот курс' (For whom is this course) and features four circular icons representing different demographic groups. Below this is a text block stating the course is designed for pregnant women but also benefits men planning a child. A note at the bottom indicates the course is updated weekly. The bottom wireframe is titled 'Оставить заявку' (Leave application) and contains three input fields for name, contact method, and contacts, each with a red placeholder bar. A red 'Оставить заявку' button is at the bottom. A small note at the bottom states that by clicking the button, the user agrees to data processing.

The wireframe shows a section titled 'Темы курса' (Course topics) with six circular icons and corresponding text descriptions. The topics are: 'Знакомство' (Familiarization), 'Подготовка к родам' (Preparation for birth), 'Смена статуса' (Status change), 'Здоровье и режим дня' (Health and daily routine), 'Планирование' (Planning), and 'Рост и развитие ребёнка' (Child growth and development). A red 'Ещё больше о курсе' (More about the course) button is at the bottom right.

## 6. FULLY RESPONSIVE

Thanks for watching
